

AKA-JSPS Seminar 2018

Digital Humanities Academy Programme Annual seminar

6 November 2018

Helsinki Congress Paasitorni (Paasivuorenkatu 5 A, 00530 Helsinki)

DIGIHUM programme addresses novel methods and techniques in which digital technology and computational science are used for collecting, managing and analysing data in humanities and social sciences research, as well as for modelling humanities and social science phenomena. This seminar is a joint effort of the Academy of Finland and the Japan Society for the Promotion of Science.

- 11:00 Lunch and registration
- 12:00 Opening words
