Japan Society for the Promotion of Science
BRIDGE Fellowship Program
FY2020 Application Guidelines

1. Purpose

The Japan Society for the Promotion of Science (JSPS) provides opportunities for overseas researchers who have conducted research activities under JSPS International Fellowships for Research in Japan or other JSPS programs to re-visit Japan to create, sustain and/or strengthen research collaborations with Japanese colleagues. The objective is to build strong networks among researchers in Japan and other countries through a variety of activities. These include former JSPS fellows visiting their past host institutions in Japan, or coming to Japan to plan or implement joint research projects and seminars, to offer training or lectures for young researchers, or to prepare or attend scientific conferences and research meetings.

Researchers invited to Japan under this fellowship program are called “BRIDGE Fellows.” Based on applications by individual researchers, candidates are recommended to JSPS Head Office by JSPS alumni associations and JSPS overseas offices or the JSPS-designated official in the Japanese Embassy for countries without a JSPS overseas office. Hereinafter a JSPS overseas office or a JSPS-designated official in a Japanese Embassy will be commonly referred to as a “JSPS office,” and the alumni association and JSPS office as “alumni association/JSPS office.”

2. Applicable Fields

All fields of the humanities, social sciences and natural sciences are included under this program.

3. BRIDGE Fellow Eligibility

To be eligible, a researcher must meet the following requirements.

- (1) Be a researcher who has experienced research in Japan under a JSPS program and who is currently a regular member of one of the officially recognized 20 JSPS alumni associations.
- (2) Be a researcher who is employed as an active researcher working at a university or a research institute.
- (3) Agreement by host researcher to all seven items of support stipulated in Form B (Agreement by Host Researcher).

* Upon receiving a recommendation from an alumni association/JSPS office, JSPS contacts the proposed host researcher in Japan. If a proposed host says that he/she cannot provide the support stipulated in Form B or cannot host the fellow, JSPS will not be able to accept the recommendation. Therefore, candidates should communicate fully with their proposed hosts before applying.

* Researchers who have already been supported under the BRIDGE Fellowship Program within the last 5 years (FY2015-FY2019) are ineligible for this award.

* Each alumni association/JSPS office has its own screening criteria as provided in “PROVISION b), Screening Criteria.” Applicants should check it before applying.

4. Host Researcher Eligibility

In principle, researchers who are employed full time or classified as such at one of the Japanese research institutions listed below are eligible to host a BRIDGE Fellow.

- (1) Universities and inter-university research institutes
- (2) MEXT-affiliated institutions engaged in research
- (3) Colleges of technology
- (4) Institutions designated by the Minister of MEXT

* Eligible institutions under (1)-(4) are listed at:

<https://www-kokusai.jps.go.jp/jps1/kikanList.do> (Posted only in Japanese)

* Definition of “full-time employment” is according to the regulations of the host institution.

* There are cases when researchers not employed in a full-time position may be eligible. Such persons must be eligible to apply for Grants-in-Aid for Scientific Research (KAKENHI) and their affiliated institution must judge them able to implement the project and must provide an appropriate research environment (e.g., laboratory,

equipment, personnel) for it.

5. Number of Fellowships Awarded

Total of 52 for FY 2020. Quotas will be announced to alumni associations/JSPS office.

* The number of quotas allocated to alumni associations may change based on the extent of the collaborative relationships they have created, sustained and/or strengthened with Japanese researchers/institutions. The results of each BRIDGE visit are to be recorded in reports prepared by both the Fellow/host researcher and the nominating committee of each alumni association/JSPS office. These reports are used to evaluate the visits along with the collaborative relations created, sustained or strengthened through them.
