CALL FOR APPLICATIONS FOR ORGANISING ACTIVITY SEMINAR 2020 (DEADLINE: OCTOBER 31, 2019)

One of the advantages of being a member of a JSPS Alumni Club is that one can apply for funding to organize an “Activity Seminar” within one’s own scientific field, with one or more invited speakers from Japan and one’s own country. **PLEASE CONSIDER APPLYING THIS YEAR** as we have so far no applications, and the option may disappear if our small Club does not manage to yield viable proposals every year.

INFORMATION ON RESEARCH OPPORTUNITIES IN JAPAN

A one hour information meeting on opportunities to do research in Japan, open to everyone interested, is held on Oct. 8 from 2pm to 3pm at the University of Copenhagen (Old Observatory, Øster Voldgade 3, near Nørreport St). Please inform any colleague you think might be interested. Dr. Tadahuru TSUMOTO from the JSPS Stockholm office will give a brief presentation of scholarships offered by this major public research fund in Japan. Also a panel of researchers with recent experience from doing research in Japan will give short presentations and be ready to answer questions from the audience.

HELP FORMER JSPS RECIPIENTS JOIN THE CLUB!

The Board has no means to identify former recipients of JSPS grants in order to invite them to join the Club – except for our members help! Do you know a colleague who has done research in Japan with a JSPS scholarship? Then encourage him or her to contact us (see <https://www.jsps-sto.com/alumni-club-3/alumni-club-in-denmark/> for addresses and further information) so that he or she can benefit from the activities and opportunities offered by the Club, including the possibility to apply for BRIDGE fellowships.

JAPAN ALUMNI AND RESEARCHER ASSEMBLY 2020

The next JARA event in March 2020 (date not fixed yet) will have the theme “Transnational Exchange in Art and Design”. The event will take place at University of Copenhagen, Southern Campus. More information will follow in the fall, along with calls for applications for fellowships and activity seminar 2020.
