

JSPS Guest Lecturer in chemistry

Associate professor Jun Takaya

Tokyo Institute of Technology

New Aspects of Classical Photoreactions

This lecture introduces some new transformation reactions of unreactive bonds and molecules enabled by the cooperation between classical photochemistry and organometallic chemistry. If you want to meet with the speaker, please send an e-mail to carl.johan.wallentin@gu.se

Wednesday 14 September 2022 at 13.15

Lecture Hall KB (Kemigården 4)

Welcome!

This seminar is sponsored by JSPS and KVA
